TO WHOMSOEVER IT MAY CONCERN

It is a true pleasure for me to write this letter of recommendation for **Mr. Nahom Birhaneyesus Beyene**, who was my student in the Department of Architecture and Urban Planning. He is one of the outstanding students. He has the terrific ability to draw on his own experience and observation to develop thoughtful opinions on a variety of issues.

His regular contributions to full-class discussions provided insight for his peers and also he took responsibility of helping his teammates and sharing the vast amount of information and ideas. In addition, he was very generous with his time and energies. **Mr. Nahom Birhaneyesus Beyene** is not only an excellent student, but he is also personally delightful. His B.Sc Thesis entitled for "*Assessing the impact of Embodied Energy on Built Environment for the Housing Project of Addis Ababa, Ethiopia*" personally more impressed by the wide range of his abilities and by modest about them.

I whole heartedly recommend **Mr. Nahom Birhaneyesus Beyene** as a prospective student, in fact, I can think of few students whom I would recommend as highly talented. I also envision him as a highly competent and skills, which I say as a high compliment as an academic asset for the Institution.

My Best Wishes for his future endeavors.

Dr. Adinarayanane

LETTER OF RECOMMENDATION

TO WHOMSOEVER IT MAY CONCERN

It gives me immense pleasure to introduce and recommend **Mr NAHOM BIRHANEYESUS**. I have been his instructor from last four years. During this association, I found him to be a **stable student** with mature thinking. He has good ability to communicate with his class mates and he was active in asking and answering questions. He also has excellent written and verbal communication skills. He is extremely organized, having very good initiative to accomplish the given home works and assignments in time.

His combination of intelligence, commitment, perseverance, creativity, and compassionate character makes him really the best suited candidate in any competition.

Apart from academic duties I found him to be very curious and with questioning mind which leads him to really dig into things. He is very eager for new things and knowledge which makes him extremely suitable to excel in any horizon he seeks.

I wish him a best in the future as well as in all his endeavors.

Sincerely,

Rajendra K Kunwar

Thank you!
